Tough on Stains, Gentle on Upholstery

Side-by-side comparisons

Maintains material integrity prolonging the life of chairs.

- Prevents cracking of upholstery with regular use.
- Removes stubborn stains, spots and discoloration.
- Leaves a silky gloss finish.

Easy and efficient application

- Spray onto surface and wipe off with a dry cloth.
- Cleans and cares without leaving a residue.
- Only a small amount is necessary to achieve excellent cleaning results.

Carefully chosen ingredients

- Made of a special blend of surfactants and avocado oil.
- Fragrance-free.

Finally! A product I can offer my customers to care for their chair upholstery. For years, dental office have been using surface disinfectants to remove dirt and tough stains from their operator chairs to the detriment of the upholstery. I can now confidently recommend Monarch Dental Chair Cleaner to not only remove dirt, grime, and stains, but also to revitalize the chair material.
